GLAS INDIVIDUELL VEREDELN

Sandstrahlung – Glasveredelung nach Ihrem Wunsch

Aktuelle Sandstrahltechniken erlauben kreative, individuelle Glasdesigns. Eine Vielzahl unterschiedlicher Effekte machen Ihr Glasbauprojekt zu einem persönlichen Kunstwerk. Die Anwendungsbereiche von Sandstrahlungen sind im Bereich Flachglas sehr facettenreich.

Die Veredelung von Innentüren, Haustürfüllungen, Duschkabinen, Eingangs- und Windfanganlagen, Raumteilern, Schiebetüranlagen und Fassaden stellt nur einen Auszug der möglichen Verarbeitungsbereiche dar.

Ebenso werden individuelle Logo's, Schriftzüge und Motive von uns auf Glas gebracht. Der eigenen Kreativität sind kaum technische Grenzen gesetzt.

Durch eine spezielle Oberflächenversiegelung bekommen unsere Sandstrahlmattierungen einen dauerhaften optischen Glanz und werden gleichzeitig effektiv gegen Umwelteinflüsse geschützt.

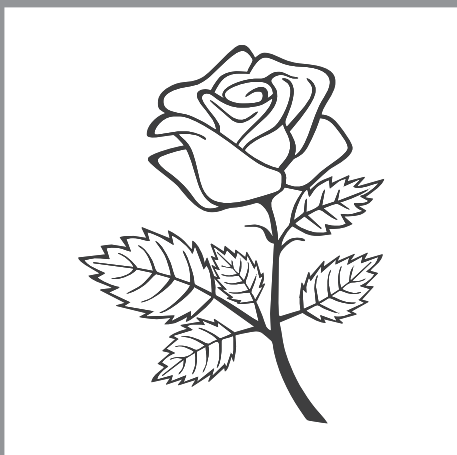

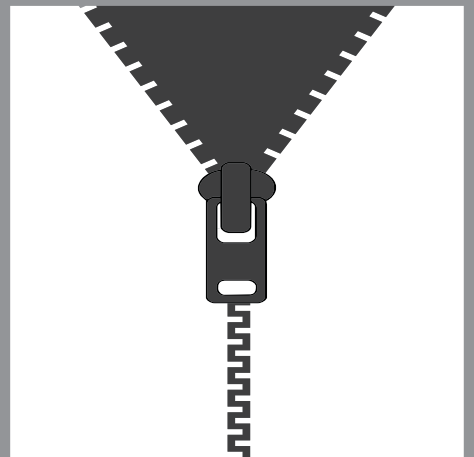

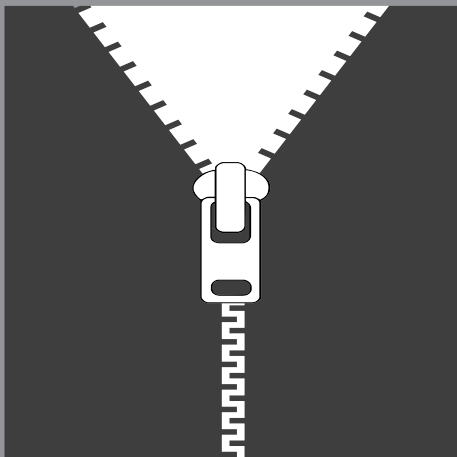

Wir freuen uns auf Ihre Designideen!

Ihre Reeder & Kamp KG

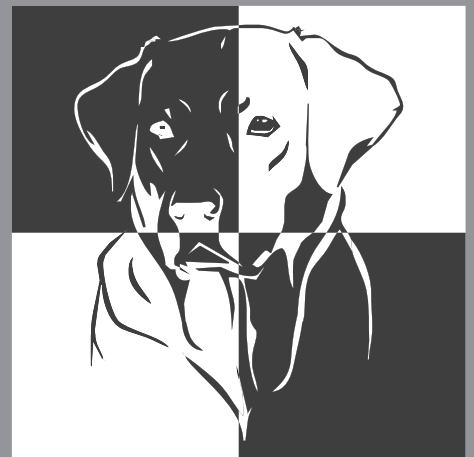

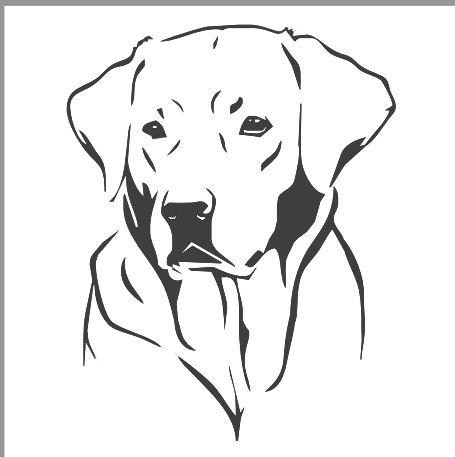

SANDSTRAHLMATTIERUNG "EINFACH"

Einfache Sandstrahlmattierungen sind in **allen erdenklichen** Formgebungen realisierbar. Eine Strahlung ist für **jedes** Motiv sowohl im Positiv, wie auch im Negativ möglich.

SANDSTRAHLMATTIERUNG "POS/NEG"

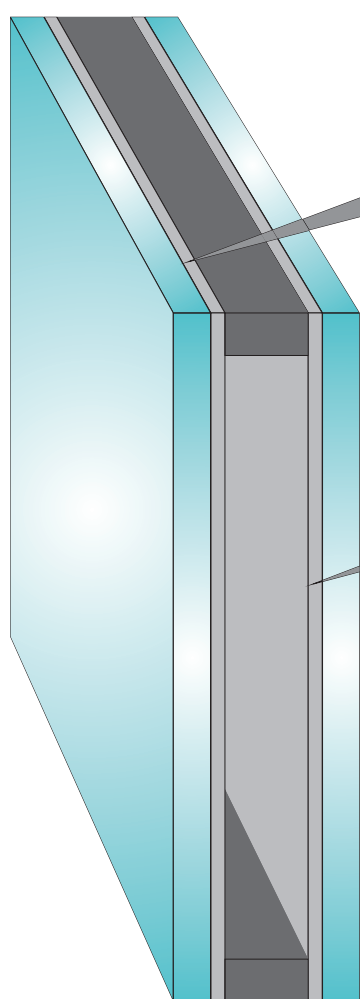

Durch die Verwendung von Positiv/Negativ - Sandstrahlungseffekten weitet sich das Einsatzspektrum der denkbaren Motivgestaltungen stark aus. Auch die Positiv/Negativ - Effekte sind in **allen erdenklichen** Formgebungen realisierbar. Die Aufteilung der Strahlungsbereiche ist für **jedes** Motiv individuell wählbar.

SANDSTRAHLMATTIERUNG "3D"

Isoliergläser machen eine zusätzliche Gestaltungsdimension möglich. Der Scheibenzwischenraum der miteinander verarbeiteten Scheiben lässt die Erzeugung komplexer 3D – Effekte zu. Innerhalb der Isolierglasscheibe wird das gewählte Motiv als Positiv/Negativ – Sandstrahlung verbaut. Dabei werden beide Scheiben gegenübergestellt. Eine der Scheiben wird als Positiv gestrahlt. Die Gegenseite in der Negativ – Variante.

In Kombination eröffnen unterschiedliche Sandstrahlungseffekte so nahezu grenzenlose Motivgestaltungsmöglichkeiten. Auch 3D – Effekte sind in **allen erdenklichen** Formgebungen realisierbar. Die Aufteilung der Strahlungsbereiche ist für **jedes** Motiv individuell wählbar.

Sandstrahlmattierung NEGATIV

Sandstrahlmattierung POSITIV

SANDSTRAHLMATTIERUNG "INDIVIDUELL"

Auch eine individuelle Gestaltung der Sandstrahlmattierung ist möglich. Das Vereins – oder Familienwappen auf der Eingangstür oder das Firmenlogo auf der Fensterfront. Eine Darstellung des Lieblingshobby auf dem Wintergarten. Eine Duschkabine und ein Badspiegel die sich gemeinsam in das optische Gesamtkonzept des gesamten Raumes einfügen.

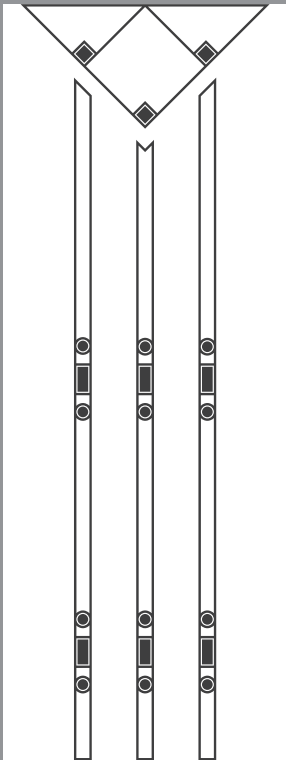

Ihren Vorstellungen sind **kaum Grenzen** gesetzt!
Gerne erstellen wir ein **persönliches Angebot** zu Ihrem Projekt.

Wir freuen uns auf Ihre Designideen!
